

NATURAL MEDICINES:

YOUR GO-TO RESOURCE TO ANSWER TODAY'S PATIENT QUESTIONS

10 TOOLS YOU CAN USE AT NATURALMEDICINES.COM

Natural Medicines is updated daily to ensure comprehensive, accurate, and clinically relevant information on natural medicines and alternative therapies. Make informed, evidence-based decisions using these handy tools:

- 1,400+ Monographs**
Get answers to your natural medicines questions including safety, effectiveness, adverse effects, and a patient education handout for each one (English/Spanish/French).
- 130,000+ Commercial Products**
Search the largest natural medicine commercial products database in the U.S.
- Natural Medicines Evidence-Based Brand Ratings**
Get a 1-10 overall rating based on safety and effectiveness, plus manufacturing quality data directly from the United States Pharmacopeia and other adverse event report systems.
- Interaction Checker**
Ensure that drug-supplement interactions are caught ahead of time. Enter a complete list of patient drugs/supplements and look for Mild/Moderate/Severe interaction ratings.
- Comparative Effectiveness**
Access charts ranking natural medicines from most to least effective for a given disease state or condition.
- Adverse Effects Checker**
Reference every natural medicine with the known potential to cause a specific adverse effect.
- Pregnancy & Lactation Checker**
View safety ratings related to pregnancy and lactation, plus links to printable patient education handouts.
- Charts**
Quickly see all monographs tagged for a specific category, such as omega-3 fatty acids.
- Continuing Education**
Take courses focused on traditional and alternative methods of prevention and treatment of disease states and medical conditions.
- Nutrient Depletion Checker**
Determine which nutrients may be depleted by prescription or over-the-counter medications, and see risks rated by clinical significance.
